Disinfects	IC-GEL provides broad spectrum germicidal action effective in reducing transient bacterial and viral contamination. It is extremely effective against a wide range of pathogenic microorganisms (including gram positive and gram negative bacteria, virus, fungi and yeast). Provides effective antimicrobial action against MRSA, VRE, Candida Albicans, Pseudomonas, Salmonella & Staph . Kills 99.99% of germs!
	IC-GEL contains 70% ethanol , meeting current guidelines for hand hygiene.
Convenient	IC-GEL is a ready-to-use gel designed for between patient contact and involvement in procedures requiring hand hygiene when hands are not visibly dirty. No water is required.
	IC-GEL saves time. It can be used anywhere, anytime, and provides effective hand hygiene in just 30 seconds.
Moisturizes	The combination of emollients offer superior moisturizing and counteract drying effects of the ethanol. Conditions skin while helping to guard against dermatological problems even after multiple uses.
Non-sticky	IC-GEL is clear, non-staining and residue-free . Does not impact glove performance.
	IC-Gel evaporates quickly to facilitate glove donning.

Kills 99.99% of Germs!
