2% Neutral Sodium Fluoride Topical Gel

- Fluoride uptake within 4 minutes
- Anti-caries preparation designed specifically for use with crowns, bridges, composite restoration and orthodontia
- Neutral pH, acid free formula
- Use with a tray or paint on method
- No sour or bitter aftertaste
- Ideal as a post whitening desensitizer
- Adheres closely to the enamel and interproximal areas

Patient Challenges

- ✓ Caries Ages 6+
- ✓ Adult Coronal Caries
- ✓ Adult Root Caries
- ✓ Hypersensitivity
- ✓ Tooth Sensitivity
- ✓ Pre/Post Whitening Care
- ✓ Xerostomia
- ✓ Bulimia
- ✓ Cancer Patients
- ✓ Gastroesophageal Reflux (GERD)
- ✓ Acid Intolerance

Neutral	Prevents irritation or sensitivity during treatments.
Protection	Aids in the protection of recurrent dental decay and protects crown margins, preserving crown and bridge work.
Acid Free	Ideal for patients intolerant of acidic fluorides, such as those with reduced salivary flow due to chemotherapy, radiation or certain medications causing xerostomia.
No Dulling or Etching	Ideal for patients with cosmetic or porcelain restorations, crowns, bridges, glass filled resin sealants, restorations sealed with glass-ionomer cements.
