

ReViVe

Concentrated Instrument Rust & Stain Remover

Enhances the life and efficiency of your Stainless Steel Instruments!

ReViVe is a **quick, safe, and efficient solution for removing rust, stains, and corrosion** from stainless steel instruments. It's environmentally friendly and cost-effective. Regular use of ReViVe maintains the life and efficiency of your instruments, reducing repair and replacement costs. It restores the original finish and improves the functionality of moving parts.

Don't Replace Your Instruments, ReViVe Them!

Great Value	ReViVe increases life span and efficiency of instruments. Reduces repair and replacement cost.
	ReViVe is cost effective. It is concentrated. Dilute 80mL to 1L of water or 160mL to 1L of water for heavily stained/rusted instruments.
Effective	Compatible with stainless steel, plastic, aluminum, brass and chrome-plated instruments (do not use with gold or silver plated instruments).
	Effectively removes rust, stains and corrosion.
	ReViVe restores instrument appearance
Safe	ReViVe is biodegradable.
	ReViVe contains natural ingredients produced from renewable resources. It is environmentally friendly and safe to use in daily cleaning tasks.
Easy to Use	ReviVe comes in a convenient 2L tip N' Measure bottle for ease of measuring and use.
