<b>Disinfects</b>	IC-GEL provides broad spectrum germicidal action effective in reducing transient bacterial and viral contamination. It is extremely effective against a wide range of pathogenic microorganisms (including gram positive and gram negative bacteria, virus, fungi and yeast). Provides effective antimicrobial action against <b>MRSA, VRE, Candida Albicans, Pseudomonas, Salmonella &amp; Staph. Kills 99.99% of germs!</b>
	IC-GEL <b>contains 70% ethanol</b> , meeting current guidelines for hand hygiene.
<b>Convenient</b>	IC-GEL is a ready-to-use gel designed for between patient contact and involvement in procedures requiring hand hygiene when hands are not visibly dirty. No water is required.
	IC-GEL saves time. It can be used anywhere, anytime, and provides effective hand hygiene in just 30 seconds.
<b>Moisturizes</b>	The combination of emollients offer <b>superior moisturizing and counteract drying effects of the ethanol</b> . Conditions skin while helping to guard against dermatological problems even after multiple uses.
<b>Non-sticky</b>	IC-GEL is <b>non-staining and residue-free</b> . Does not impact glove performance.
	IC-Gel <b>evaporates quickly</b> to facilitate glove donning.
