REV 01 072024

Neutral Sodium 1.1% Fluoride Gel

INSTRUCTIONS FOR PATIENTS USING SUPPLEMENTAL FLUORIDE

If using a tray:

- Place a thin ribbon of fluoride gel in each tray.
- Place the trays on the teeth and leave in place for 4 minutes. If gel oozes out of the tray, you are using too much.
- After 4 minutes, remove the trays and spit out any excess gel.
- Rinse the applicator trays with water.
- Do not eat, drink or rinse for 30 minutes.

If using a brush-on method:

- After brushing with toothpaste, rinse as usual.
- Place a thin ribbon of gel on the toothbrush.
- Brush for 2 to 3 minutes.
- Spit out any excess gel.
- Do not eat, drink or rinse for 30 minutes⁴.
